Summary

Technical Support Executive with hands-on experience in Python, Django, SQL, and web applications. Skilled in troubleshooting technical issues, debugging applications, resolving user queries, and providing technical assistance. Strong communication skills with the ability to analyze problems, document solutions, and collaborate with cross-functional teams.

Skills

- Django Rest framework (DRF)
- Authentication
- JWT
- Python Function, Recursion, Decorator, Generator, Database connection
- SQL and MySQL expertise
- CRUD
- Data analysis with NumPy and Pandas
- Data visualization with Matplotlib
- GitHub and VS code
- Version control with Git
- HTML5 and CSS3
- JavaScript development
- Basic web development
- Bootstrap
- Django ORM, Forms and Models
- Django Jinja tags, Template inheritance
- Basic REST API
- Data management
- Code debugging
- Multithreading, Exceptional Handling
- Python Data structure
- Machine Learning
- File handling
- Backend Development
- Excel proficiency
- Intro to machine learning
- Basic AI concepts
- Agile project management
- Technical documentation
- Linux
- MVC/MVT Architecture

Experience

INTERNSHIP TRAINEE | 07/2025 – 05/2026

Adrasti Technology pvt. Ltd - Bengaluru, India (Full-time Internship)

- Integrated ADAS safety features at system level, achieving low-latency performance for real-time automotive applications.
- Developed Python-based ADAS prototypes reducing sound detection latency by 20%.
- Constructed scalable, maintainable ADAS components using OOP principles and modular architecture, improving system performance.
- Designed and developed ADAS sound recognition system in Python for real-time detection of horn, engine, and crash sounds, enhancing driver safety.
- Trained and optimized machine learning models with TensorFlow and Scikit-learn using data augmentation and hyperparameter tuning techniques.

Projects

1. Netflix Clone | Django, Python, JavaScript, Bootstrap, SQLite

[manasR2003/Netflix-Clone-Fullstack-Django: Netflix clone , OTT based streaming platform](#)

- Developed a Netflix-inspired OTT platform with secure authentication, genre-based browsing, search, and watchlist features.
- Designed responsive user interfaces using HTML, CSS, JavaScript, and Bootstrap for seamless user experience.
- Built backend functionality using Django and Django ORM for efficient content and user management.
- Implemented personalized content recommendations and an admin dashboard for platform administration.

2. AI-Based Sound Recognition System for ADAS | Python, TensorFlow, Librosa, NumPy ([manasR2003/Vehicle-Sound-System-Check](#))

- Developed a real-time sound recognition system to classify horn, engine, and crash sounds for ADAS applications.
- Implemented audio preprocessing and feature extraction using Librosa (MFCCs, spectrograms, and chroma features).
- Trained and optimized machine learning models using TensorFlow with data augmentation and hyperparameter tuning techniques.
- Evaluated model performance using precision, recall, F1-score, and confusion matrix analysis to improve classification accuracy and reliability.

3. Sales Performance Analysis using Python Tech Stack: Python, Pandas, NumPy, Matplotlib

[manasR2003/Sales_analysis: Analyze company sales data to generate business insights](#)

- Analyzed sales data using Pandas and NumPy.
- Performed data cleaning, preprocessing, and feature engineering.
- Calculated key business metrics such as Total Revenue, Total Units Sold, and Average Order Value.
- Identified top-performing products and sales trends through exploratory data analysis.
- Created visualizations using Matplotlib to represent sales performance and revenue distribution.
- Generated actionable business insights from historical sales data.

Certifications & Licenses

- Python Full Stack - JSpiders, Marathahalli, Bangalore - 2025
- The AI Ladder: A Framework for Deploying AI in your Enterprise (IBM)
- Advance Excel (Internshala)

Education and Training

Gandhi Academy of Technology And Engineering - Berhampur | B.Tech
Electronics And Communication Engineering, 06/2025 | CGPA : 8.17

Binayak Acharya Higher Secondary School – Odisha | Plus 2
Science, 05/2021 | Percentage : 68%
